

***FBC Presents***

# **U.S. Department of Labor Cybersecurity Day**

**Date/Time: October 10, 2024**

**DOL HQ Frances Perkins Building, Washington, DC**

## ***General Information***

The DOL Cybersecurity Awareness event is part of the agency's month-long 2024 Cybersecurity Awareness Month Training for agency employees. The last event was conducted in 2019 and had over 300 attendees participate. This year's event will be a hybrid event which will open up the audience to DOL employees throughout the country.

Top-in-their-field companies can meet personnel from the U.S. Department of Labor (DOL) face-to-face at their Cybersecurity Day. Hosted by the Office of the Chief Information Officer (OCIO), this is the only expo hosted on-site at the DOL that allows outside vendors, so it's a wise choice for any company wanting to demonstrate their products or services to this difficult-to-reach team. All DOL employees and contractors receive promotions from FBC.

U.S. Department of Labor Mission: To foster, promote and develop the welfare of the wage earners, job seekers and retirees of the United States; improve working conditions; advance opportunities for profitable employment; and assure work-related benefits and rights.
