

FBC Presents

Cyber Industry Day at Fort Gordon

Date/Time: November 19, 2026

Fort Gordon, Augusta, GA

General Information

The Army's 'cyber center of gravity' is at Fort Gordon. It's the home of the U.S. Army Signal Corps, Cyber Corps, Cyber Protection Brigade, and the Cyber Center of Excellence. So, if you are interested in learning more about different technologies being worked on, this is the event you should be attending.

The Fort's 2026 Cyber Training Day provides an excellent opportunity for IT, cybersecurity and tactical technology-oriented personnel to network face-to-face with the many technology based companies in attendance, to discuss new projects, technologies, and resources.
