

***FBC Presents***

# **2026 USDA Cybersecurity Expo**

**Date/Time: October 6-7, 2026**

**Virtual, , MD**

## ***General Information***

The virtual 2025 USDA Cybersecurity Expo will provide its active participants with information and resources on today's vulnerabilities, incidents, security lifecycle, risks and mitigations. It will also identify ways to work together and build a solid security foundation program to meet future challenges and trends in cybersecurity.

The USDA forecasts high attendance at this event. Attendees will include senior executives, chief information officers (CIOs), information systems security program managers (ISSPMs), personnel from the USDA workforce, and federal and industry partners. The expected attendee audience is both IT professionals and those non-IT professionals who are assigned IT security roles.
